

The Metal Makes the Difference.

When there's no room for error, there's no better choice than Electralloy.

YOUR FORGINGS MUST PERFORM.

You need specialty alloys with exceptional quality and cleanliness. With exact chemistry and with repeatable precision.

Electralloy specialty alloys will help you produce forgings that perform to the toughest standards. With longer life cycles, enhanced performance, productivity and ultimate reliability.

THE METAL MAKES THE DIFFERENCE.

Choose from AOD, ESR or VAR. In ingot, remelted ingot, RCS billet, round billet, peeled and polished bar.

PICK YOUR GRADE:

Stainless, Duplex Stainless, Super Duplex, Nitronic®, Copper-Nickel, Nickel-Copper, Nickel Alloys or Custom Melt.

- AOD ingots: 21" - 63"
- ESR/VAR ingots: 20" - 44"
- RCS from 4" - 36"
- RDS from 3/4" - 36"
- Fully Conditioned
- Peeled/Polished

When your forgings have no room for error, get the metal that makes the difference.
